## Language

- English
- Sinhala

## Soft Skills

- Hardworking and Dedication
- Time Management
- Work as a team
- Creative thinking

## Education

### B.sc (Hons) in Software Engineering (undergraduate)

#### University of Kelaniya | 2021 - Present

- Mobile application development
- Web application development
- Game development technology

### GCE Advanced level (Physical Science Stream)

#### Bandaranayake Central College - Veyangoda | 2019

- A: Mathematics
- B: Chemistry
- B: Physics

### GCE Ordinary level

#### Bandaranayake Central College - Veyangoda | 2016

- 7As B and C

## PERSONAL PROJECTS

### • Blog Website Front-end

(ReactJs, CSS, HTML)

Developed a responsive personal blog website using ReactJS, featuring an interactive UI, efficient state management, responsive design, and SEO optimization.

### • My Portfolio Website

(ReactJs, ViteJs, CSS, HTML)

Built a sleek and responsive portfolio website using ReactJS with Vite.js, showcasing my skills and projects through an intuitive user interface, dynamic content rendering, and fast performance.

### • Doctor Appointment Booking Website

(ReactJs, NodeJs, MongoDB, Stripe)

Developed a ReactJS-based Doctor Appointment Website with NodeJS, MongoDB, and Stripe integration, highlighting expertise in user-friendly interface design.

### • Snake Game

(JavaScript, HTML, CSS)

Designed and implemented a classic Snake Game using HTML, CSS, and JavaScript for an engaging and nostalgic gaming experience.

## Interests

- Cricket
- Music
- Gaming
- Traveling

- **Discord Bot**

(Python)

Developed a Python-based Discord bot using discord.py with custom commands, moderation tools, and API integrations, highlighting strong Python and Discord API skills.

- **Online Shopping Center Website (Group)**

(ReactJS, MySQL)

Developed an online shopping site using React for the frontend and MySQL for backend storage, showcasing proficiency in creating dynamic web applications.

- **Auto Master**

(NodeJS)

Developed an online shopping site using React for the frontend and MySQL for backend storage, showcasing proficiency in creating dynamic web applications.

## Skills Summary

### **Frontend Development**

- HTML
- CSS
- ReactJS
- JavaScript
- Python

### **Backend Development**

- NodeJS
- Java
- PHP

### **Database Management**

- MongoDB
- MySQL

### **Tools**

- Visual Studio Code
- Postman
- Github
- WebStorm
- IntelliJ IDEA

I hereby declare that the information furnished above are true and accurate to the best of my knowledge.
